

FALLS CITY

End of the road, start of your adventure

299 Mill St. • 503.787.3631 • www.fallscityoregon.gov

Welcome To

Sept 2024

NEW Resource Center

The new manufactured building on the Mill lot on the corner of Bridge St. and Parry will be the home of the new Falls City Resource Center. This center will provide resources and information to our community members such as health care, SNAP benefits, immunizations, food needs, and many more. The hope is that dental and medical needs will also be addressed there in the future as well. Stay tuned for a list of resources and their schedules.

There will be an open house on September 23rd from 4-7 p.m.

Wastewater Treatment Facility Lane Closures

Wastewater Treatment Facility Construction - sewer line installation

The Falls City Highway installation of the sewer line TO the lagoon site FROM Falls City High School is ESTIMATED TO LAST INTO THE FIRST PART OF SEPTEMBER, BASED ON GROUND BORINGS FROM THE SUB-CONTRACTOR.

THE CITY WILL KEEP THE COMMUNITY INFORMED AS THE TIMELINE PROGRESSES.

We appreciate your patience as this project impacts traffic on Main Street.

Polk County Deputy Coming To Town

The City of Falls City has not had a law enforcement officer dedicated to the City for several years. During that time, city government staff and the Council have unsuccessfully put levies on the ballot to financially support a dedicated officer to enforce city and state laws. This past spring, on behalf of the City Council, staff has re-engaged the Polk County Sheriff's Office about the possibility of limited coverage inside city limits. At the same time, the Polk County Sheriff's Office was approached by several timber companies about coverage on their lands in rural Polk County. A partnership for coverage was suggested and by a pooling of funds, a full time Sheriff Deputy position was achieved. The plan is for this deputy to begin patrols in September.

"Smart" Water Meter

The new meters are installed and are working well. The new meters are a more accurate meter compared to the old meters and some people may see an increase in water bills. If you are under the minimum on your water bill (5,000 gallons) you will not see an increase of any kind. The accuracy will come when a large amount of water is used.

City Meetings

City Council

Monday, September 9 @ 6 pm in the Community Center at 320 N Main Street.
